

# Content Advisory

The Western Stage has a commitment to presenting diverse material that is entertaining and sometimes challenging. Content and themes may not be appropriate for all, as personal sensitivities vary. While TWS does not determine suitability for each individual, we offer the following inventory of content that some may consider adult in nature and of stage effects that may be of concern for patron health. Please keep in mind that the words listed, taken out of context, may seem more offensive than they would in the world of the play.
